

**PRODUCT PURPOSE**

**MEDICATED: A Complete Feed for Growing Show Pigs.**

Reducing the incidence of cervical lymphadenitis Uowl abscesses) caused by Group Echerichia Streptococci susceptible to Chlortetracycline.

**DESCRIPTION**

Krave has earned the reputation of being the best finishing feed in the industry over the past few years. Not only from its high palatability, from which its name is derived, but by natural body cover, muscle definition, and enhancing skin and hair quality.

**FEEDING DIRECTIONS**

To be fed as the sole ration from 150 lbs body weight to show day. Feed should be provided in a clean feeder or feed pan. Feed can be provided in a self-feeder at all times or the pig's daily allotment of feed can be hand-fed twice per day. Provide a source of fresh, clean water at all times. Do not feed moldy or insect-infested feed. Pens should be kept clean and free from any stale or moldy feed. Store feed in a dry place and protect from damage from other animals.

**WARNING:** This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.
