

FRONTIER EZ GRAZE COW MINERAL 6 R-1200

MEDICATED

A Mineral Supplement for Mature Reproducing Beef Cows

For improved feed efficiency in mature reproducing beef cows

FEEDING DIRECTIONS

Feed Cow Mineral 6 R-1200 at the rate of 1.34 to 5.34 ounces/head/day to provide 50 to 200 mg. of Monensin/head/day. Hand feed in at least 1.0 pound of feed, or mix in total ration. During the first 5 days, cows should receive no more than 2.67 ounces/head/day of this mineral or 100 mg. of Monensin/head/day.

LIST OF INGREDIENTS

Calcium Carbonate, Mono-Dicalcium Phosphate, Salt, Magnesium Oxide, Processed Grain By-Products, Magnesium Mica, Molasses Products, Red Iron Oxide, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Copper Sulfate, Zinc Oxide, Manganous Oxide, Zinc Sulfate, Manganese Sulfate, Sodium Selenite, Ethylenediamine Dihydriodide, Ferrous Carbonate, Cobalt Carbonate, Mineral Oil and Artificial Flavoring Agents.

CAUTION: Do not allow horses or other equines access to formulations containing Monensin. Ingestion of Monensin by equines has been fatal. Monensin-medicated cattle feed is safe for use in cattle only. Consumption by unapproved species may result in toxic reactions. Do not feed undiluted. Feeding undiluted or mixing errors resulting in high concentrations of Monensin has been fatal to cattle. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. If feed refusals containing Monensin are fed to other groups of cattle, the concentration of Monensin in the refusals and amount of refusals fed should be taken into consideration to prevent Monensin overdosing.

WARNING: A withdrawal time has not been established for pre-ruminating calves. Do not use in calves to be processed for veal.

ACTIVE INGREDIENT

Monensin 1,200.0 grams/ton

GUARANTEED ANALYSIS

Calcium, min	15.0 %
Calcium, max	18.0 %
Phosphorus, min	6.0 %
